The cut to its highest standards

What is a Premium Ideal Cut grading report by HRD Antwerp™?

A Premium Ideal Cut grading report by HRD Antwerp™ is a report for round brilliant diamonds that have been cut to the highest possible standards, with the strictest proportions parameters (see table below), excellent polish and excellent symmetry. These diamonds offer exceptional fire and brilliance due to their perfectly balanced facets that optimize the natural refraction of light.

When the cut parameters of a round brilliant diamond falls into the Ideal category, a triple Ideal cut grade will be mentioned in the grading report.
